What is Service-Call?

Service-Call for Managed and Virtual Offices (MVO), delivers a family of communications solutions specifically tailored for the MVO sector. Developed by British based voice specialists, Splice.com, Service-Call satisfies the needs of a wide range of services, supporting lower end budget office space to high end prestige Central City locations.

Service-Call operates with market leading PMS, CRM and general or bespoke billings systems. It integrates with WiFi infrastructures for roaming staff and offers advanced Business Management tools for Call Reporting, Live Business Dashboards and Wallboards and fully integrated Call Recording.

Virtual Office/Reception services are also available, whether that's operating as a dedicated service or part of the overall Managed Service Office solution.

Key Features of Service-Call

Company/Tenant Configuration

Allows for the configuration and programming of multiple 'Companies/Tenants', giving each business their own individual telephone system

Billing Management

Works with Elephant, Tri-Line and other billing systems. Also offers its own built-in billing solution
